

LET THEM BE KIDS

Through the support of our corporate sponsors, we are proud to announce
Our 2009 award opportunities

We have identified a deep need across the country. Groups, large and small, need assistance in the securing of funds and the building of play structures. To help with this need and because of our desire to build strong communities at the grass-roots level, the *Let Them Be Kids Program* was launched in 2006 in the spirit of helping communities come together in one common goal – to build a better future for the next generation.

Thirty LTBK projects have now been completed across Canada. From communities such as Donkin, Nova Scotia to the GTA the results have been the same ...improved communities, changed lives.

We are proud to announce that on November 10th we will begin selecting the 2009, Let Them Be Kids Communities.
